

Course Outcomes of M.A. (Geography.)

Course Code	Course Title	Course Outcome
FCGEO101	Development of Geographical Thought	Students will Acquire basic concepts in geographical thoughts through ancient, medieval and modern periods; recent trends and explanations in geography.
CCGEO102	Geomorphology	Study landforms and the related processes from the traditional concept to the contemporary development in Geomorphology
CCGEO103	Climatology	Acquire clear concepts of climatology Greater understanding of the nature and scope of climatology; ocean atmospheric interaction; climate change and its impacts
CPGEO104	Practical - I	Acquire knowledge and clear concepts of the different types of map projection

Course Code	Course Title	Course Outcomes
CCGEO201	Geography of India	Gain knowledge of physiography of India and different geographic features.
CCGEO202	Oceanography	Nature and scope of oceanography, Ocean deposits, Physical and chemical properties of sea water; density, temperature and salinity; ocean currents, waves & tides; sea level changes.
CCGEO203	Population Geography	Acquire clear concepts of population geography and demographic studies Greater understanding of nature, scope and evolution of population geography through spatial and temporal frameworks; population dynamics; world population and development with special reference to India. '3
CPGEO204	Practical - II	Have an in-depth knowledge on Plate table survey; counterling with Dumpy Level; measuring of height and traversing by Theodolite

Course Code	Course Title	Course Title
ECGEO301A	Agriculture Geography	Students will understand agricultural geography based on Von Thunen's model and concepts of crop concentration, diversification, combination; agricultural productivity and efficiency.
CCGEO302	Economic Geography	Students will acquire knowledge of the fundamental and modern issues in Economic Geography To gain in-depth knowledge of the concepts and approaches; classification of economic activities and their changing trend; theories of economic development;
CCGEO303	Geography of Jharkhand	Physiography of Jharkhand and related geographic features of Jharkhand will be understood.
CPGEO304	Practical - IIII	They will understand to identify the formation of landforms and biodiversity in the area.

Course Code	Course Title	Course Outcomes
ECGEO401B	Regional Planning and Development	Concepts of region, regionalization and regional planning; theories on recent development; concept on inequality and regional disparity
ECGEO402B	Urban Geography	They will acquire clear concept of global cities; urban planning, master plan and slum; recent process of urbanization in world with special reference to India;
EPGEO403B	Urban Geography & Reg. Planning Practical	Develop the practical concepts of urban geography related to spatial analysis of geographical data; morphology of urban area;
PRGEO404	Dissertation	The students will understand the process of preparing dissertation on a selected topic.

PROGRAMME SPECIFIC OUTCOMES

1. Establish the position of Geography as a subject and its importance and interrelationships that reiterate and validate the Man Environment relationship.
2. In the course of field surveys, students acquire a greater understanding of the socio-economic and cultural dimensions of the populations with greater focus on marginalized section of society.
3. Physical field surveys enable the students to understand the landforms, geomorphic process and associated hazards.
4. Provide training to students in handling modern instruments and methods like Aerial Photographs, Satellite Imagery, Total Station and Meteorological instruments.
5. Computer-based techniques (RS & GIS) are incorporated in the syllabus which prepares the students for further analytical studies.
6. The students are directed towards problem analysis so that they can design and conduct independent research.
7. The comprehensive syllabus promotes and develops a thorough knowledge of concepts, methods and theory.
